We like to think of The Sanctuary as a haven. A place where you can leave the world at the door, and take some time for yourself. Where our professional therapists are on hand to provide a warm, personalised service ~ fully focused on assuring you feel relaxed, nurtured and cared for.

We are located right in the heart of Sherborne, in a beautiful Grade II Listed building in historic Swan Yard. We recently joined forces with our sister salon, Margaret Balfour Beauty ~ which had been here for 22 years, and in the town since 1979 ~ and have extended into the adjacent building to create 10 warm, cocooning treatment rooms designed to calm and soothe you. This includes a room on the ground floor for those clients unable to navigate stairs, along with shower facilities for your convenience.

We offer a full range of professional skin, body and nail therapies, and we are a Dermalogica Prestige Salon, *and* one of a relative handful of Clarins-appointed Gold Salons in the country ~ both accolades that recognises that we provide the highest level of care and service to our clients. And as specialists in both of these advanced skincare systems, we are able to offer a whole wealth of complementary care for your skin, body and broader wellbeing.

Our therapists are selected for their expertise and knowledge in their field, are always here to help, and will always endeavour to exceed your expectations. It goes without saying, that all client consultations are confidential, and conducted with the utmost degree of discretion & humility.

You are always welcome to call in to discuss treatments or products, or to have a free consultation to help you make informed decisions about which treatments you may wish to book.

LASER SKIN REJUVENATION

Hailed as a 'Best New Beauty Innovation' at the UK Beauty Awards, and with a long list of glowing recommendations, the 3D Trilogice long pulse laser can be used to effectively treat a loss of elasticity, and pigmentation, by targeting both melanin and collagen.

The triple wavelength laser creates just a warm sensation in the skin, but generates heat deep within the tissues of the epidermis and dermis, encouraging the stimulation of collagen, along with an even complexion and the lightening of pigmentation.

Prior to your first treatment, you will need to book in for a 30 minute consultation so that we can carry out a patch test, and discuss your concerns and/or desired outcomes. We charge a nominal fee of £10 for this, which is redeemable against any treatments you choose to go ahead with.

Dermalux is one of the most powerful portable LED devices in the world, has won multiple awards, and is medically CE certified for treating acne and psoriasis. It harnesses the power of pure light, using unique combinations of Blue, Red and Near Infrared wavelengths to trigger a cascade of biological processes within the skin. Collagen and elastin production is boosted, hydration increased, irritation calmed. skin tone and texture improved, hyper-pigmentation reduced...the benefits really are too numerous to list them all here!

Dermalux Flex MD is available as a treatment add-on to most of our facials ~ please see details on the previous page.

ADVANCED DERMALOGICA FACIAL TREATMENTS

Our advanced facial treatments work to reach the deeper layers of the skin. Because of this, there may be a period of downtime after your treatment, during which your skin may be more sensitive, and you may experience peeling or redness. Rest assured, this is a perfectly normal response to the effectiveness of your treatment, and nothing to be concerned about. Aftercare is an integral phase of your treatment, and some of these treatments include a homecare regime to support this process ~ which may involve minimising your skin's exposure to the sun.

Treatment courses are available ~ please ask for details.

DERMALOGICA MELANOPRO PEEL PROGRAMME 1hr Facial + 6 week product programme + Skinsolver Facial £350

Pigmentation just met its match! This is a 2-phase clinical-strength treatment regimen of between 4-6 weeks, for those clients who have hyper-pigmentation concerns such as sun spots, acne scars, melasma, dull skin, and rough texture. The first phase of your treatment is an in-salon application of an intensive peeling masque ~ composed of tri-acids, Retinol, Niacinamide, and brightening peptides ~ to kickstart an intensive exfoliation process. You will leave the salon with the masque still on your skin, before removing it at home after between 3-7 hours.

After your salon visit, your treatment programme continues at home with regular daily applications of advanced Dermalogica products that will stimulate continued exfoliation and resurfacing, and soothe and hydrate your skin. Your skin will enter into a phase of light peeling for approximately a week, during which time your therapist will be in touch daily, to monitor your progress and provide tailored aftercare guidance. As you settle in to your 6-week home-care regime, you will have a weekly check-in with your therapist (either virtual or in-person). The final step in your treatment programme will be a return to the salon for a nourishing facial treatment, specifically tailored to your skin.

Please note, you will be required to visit the salon approximately two weeks before your appointment, for a pre-treatment consultation and patch test.

DERMALOGICA LUMINFUSION 1hr 15 £130

This facial creates an instant glow, and diminishes signs of ageing, with absolutely no downtime. The treatment begins by combining a targeted eye peel with a retinol and hydroxy acid blend, to resurface and renew the skin. This is followed by Nanofusion technology, to deeply infuse active ingredients, and LED light therapy to visibly restore your skin's luminosity. A great pre-party facial!

DERMALOGICA PRO-MICRO-NEEDLING

45 mins £160

Course of 3 treatments (4-6 weeks apart): £430

Micro-needling is a minimally-invasive treatment that delivers tiny traumas to your skin's dermis. This is incredibly beneficial to your skin. Dermalogica's advanced needle tip structure technology ~ which induces only a light prickling sensation, boosts collagen and elastin production, which smooths and tightens the skin, and reduces lines over time. Results are elevated with both a chemical peel ~ to target dark spots, wrinkles, and visible pores ~ and Dermalogica's Pro Restore recovery concentrate. Some post-treatment care is required at home, to promote the healing process and amplify your results.

Please note, a patch test and pre-treatment consultation is required.

DERMALOGICA PRO-RETINOL SKIN TREATMENT

1hr £110

This rejuvenating and nourishing facial uses Nanofusion tech to flood your skin with layers of professional-grade retinols. Derived from Vitamin A, Retinol is a powerful active, with numerous proven skin renewal benefits. It is absorbed deep into the skin, encouraging collagen production, and plumping the skin. By accelerating the skin cell turnover process, Retinol reduces the build-up of cells, keeping pores clear, improving dull skin, sun damage, wrinkles, fine lines and hyper-pigmentation ~ ultimately leading to brighter, smoother skin.

Once at home, and as cell turnover increases, you may experience some post-treatment irritation and flaking. A homecare routine will be recommended to you.

PRO POWER PEEL™ DERMALOGICA SKIN TREATMENT

Pro Power Peel30 ~ 30 mins £60

Pro Power Peel60 ~ 60 mins £100

This is a highly-active exfoliating treatment that renews and resurfaces the skin. Depending on your skin type and/or previous experience of chemical peel treatments, we may recommend an initial introductory treatment. All treatments include a Dermalogica homecare product set.

Please note, a patch test is required at least 48hrs prior to your appointment.

CACI

NON-SURGICAL FACE *and* EYE LIFTS

With unparalleled results (and a wide celebrity following) CACI treatments help to reverse and delay the signs of ageing by gently tightening and toning the muscles of the face and neck, whilst smoothing the appearance of fine lines and wrinkles.
